

(1) Heterogeneous catalytic transfer hydrogenation

24th April 2017

PUBLICATIONS

1. **Gy. Szöllösi**, M. Bartók.
Vapour-phase heterogeneous catalytic transfer hydrogenation of alkyl methyl ketones on MgO: Prevention of the deactivation of MgO in the presence of carbon tetrachloride.
Appl. Catal. A: Gen., **169** (1998) 263.
2. **Gy. Szöllösi**, M. Bartók.
Catalytic Transfer Hydrogenation of 2-Butanone on MgO. New Active Surface Sites Generated by Treatment with Chloroform.
Catal. Lett., **59** (1999) 179.
3. **Gy. Szöllösi**, M. Bartók.
Hydrogenation of Unsaturated Ketones: Selective Catalytic Transfer Hydrogenation of 5-hexen-2-one over MgO.
J. Mol. Catal. A: Chem., **148** (1999) 265.
4. **Gy. Szöllösi***, M. Bartók.
Role of basic and acidic centers of MgO and modified MgO in catalytic transfer hydrogenation of ketones studied by infrared spectroscopy.
J. Mol. Struct., **482-483** (1999) 13.
5. **Gy. Szöllösi**, M. Bartók.
Catalytic Transfer Hydrogenation of 2-Butanone over Oxide Catalysts.
React. Kinet. Catal. Lett., **68** (1999) 197.

CONFERENCES, SYMPOSIA PRESENTATIONS

1. **Gy. Szöllösi**, M. Bartók.
Effect of MgO Modification on Catalytic Transfer Hydrogenation of Ketones.
4th Pannonian International Symposium on Catalysis, P56, 1998, Smolenice (Slovak Republic).
2. **Gy. Szöllösi**, M. Bartók.
Role of basic and acidic centers of MgO and modified MgO in catalytic transfer hydrogenation of ketones studied by infrared spectroscopy.
XXIV European Congress on Molecular Spectroscopy, P E49, 384 p., 1998, Prague, (Czech Republic).
3. **Gy. Szöllösi**.
Vapour-phase catalytic transfer hydrogenation of ketones over oxide catalysts.
Hungarian Catalytic Days '99.
4. **Gy. Szöllösi**, M. Bartók.
Catalytic Transfer Hydrogenation over Basic Oxides.
5th Pannonian International Symposium on Catalysis, 2000, O16, Kazimierz Dolny nad Wisla (Poland).
