5. **Gy. Szöllősi**, M. Bartók.
Enantioselective Michael addition in the presence of cinchona alkaloids.
Conference of the Hungarian Chemical Society, P-83, 2001, Hajdúszoboszló, (Hungary).
6. **Gy. Szöllősi**, P. Forgó, M. Bartók.
Enantiomeric Separation of Cyclic Hydroxyesters and Their Derivatives over Cyclodextrin Columns.
14th International Symposium on Chirality, P G13, 2002, Hamburg, (Germany).
7. **Gy. Szöllősi**, G. London, M. Bartók.
Enantioselective Direct Aldol Addition of Acetone to Aliphatic Aldehydes.
14th International Symposium on Chirality, P G11, 2002, Hamburg, (Germany).
8. **Gy. Szöllősi**, K. Szőri, M. Bartók.
Asymmetric Michael addition over heterogenized cinchona alkaloid catalyst.
6th International Symposium on Catalysis Applied to Fine Chemicals, P159, 2003, Delft, (Netherlands).
9. **Gy. Szöllősi**, A. Chatterjee, P. Forgó, M. Bartók, F. Mizukami.
Configuration of C(4') chiral center in hexahydrocinchonidine diastereomers.
15th International Symposium on Chirality, PA-27, 2003, Shizuoka, (Japan).
10. A. Mayer, M. Sipiczki, **Gy. Szöllősi**, J. T. Kiss, I. Pálinkó.
Synthesis, structural characterization and some applications of immobilized organocatalysts.
EUCMOS 2010, PS1-96, 2010, Florence, (Italy).
11. M. Fekete, **Gy. Szöllősi**, Cs. Somlai, M. Bartók.
Asymmetric aldol reactions catalyzed by L-prolin terminal heterogenized peptides.
Chemistry Conference of the Hungarian Chemical Society, P-18, 2013, Hajdúszoboszló, (Hungary).
12. **Gy. Szöllősi**, T. Sztojov.
Asymmetric Michael-addition Catalyzed by Simple Primary Amine Organocatalysts.
Chirality 2014, P-179, 2014, Prague, (Czech Republic).
13. **Gy. Szöllősi**, L. Kovács.
Cinchona Alkaloid Catalysts in the Asymmetric Michael-addition of Fluorinated C-nucleophile to β -Nitrostyrene.
Chirality 2014, P-180, 2014, Prague, (Czech Republic).
14. A. Gurka, **Gy. Szöllősi**, M. Bartók.
Continuous-flow enantioselective aldol addition reactions catalyzed by immobilized oligopeptides.
2nd National Conference of the Hungarian Chemical Society, SZ-P-8, 2015, Hajdúszoboszló, (Hungary).
15. A. Gurka, **Gy. Szöllősi**, M. Bartók.
Continuous-flow enantioselective aldol additions over immobilized oligopeptides.
Eleventh International Symposium on Heterogeneous Catalysis, 2015, P48, Varna, (Bulgaria).
16. **Gy. Szöllősi**, L. Kovács, V. Kozma, V. J. Kolcsár.
Asymmetric Michael-addition catalyzed by a cinchona alkaloid derivative non-covalently immobilized over layered materials.
13th Pannonian International Symposium on Catalysis, 2016, P40, Siófok, (Hungary).
